PRODUCT DETAIL

1/4" CHANNEL SCREED /CONTROL JOINT

INSTALLATION DETAIL / Cross Section

USAGE

Fry Reglet 1/4" Channel Screed is a traditional molding that provides a sharply defined, attractive narrow reveal to break the monotony of large, plastered surfaces. Used also to introduce subtle trim in soffits and on fascia. This is a very versatile molding. It can be factory curved to specific radius dimensions and fabricated for a variety of conditions where horizontal and vertical runs intersect.

NOTE: Qualifies for use as a control joint for stucco and plaster applications when installed in accordance with ASTM C1063.

GUIDE SPECIFICATION

Where indicated on drawings, Fry Reglet 1/4" Channel Screed, as manufactured by Fry Reglet Corporation, shall be installed. Aluminum shall be extruded alloy 6063 T5, with chemical conversion coating, clear anodized or other specified finish. Refer to finish section.
